

NHBC: Pride in the Job Awards

2008 was our best year yet in the National House-Building Council's 'Pride in the Job' awards with fourteen of our regional site managers receiving a 'Quality Award'. This is the only national competition to focus on the contribution made by the site manager in producing high quality new homes.

Qualifying out of more than 18,000 contenders across the UK, 14 of our site managers will now join 400 other Quality Award winners competing for the 'Seal of Excellence' Awards in the late autumn.

Shaune Hicks, Dockside. Seal of Excellence award winner.
